DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-30, drawn to a method/system of measuring characteristics through an intensity change, classified in class 356, subclass 301.
 - II. Claims 31-36, drawn to a method of aligning the beam emitted by a probe, classified in class 356, subclass 73.
 - III. Claims 37-45, drawn to a system for a microscope system with shock absorption, classified in class 359, subclass 368.
 - IV. Claims 46-54, drawn to a scanning system utilizing a noise free devices for the sample, classified in class 250, subclass 234.
 - V. Claims 55-87, drawn to a system/method for microscopy utilizing a nanotube tip probe, classified in class 977, subclass DIG 1.
 - VI. Claims 88-111, drawn to a system/method for aligning the beam utilizing a field of view technique, classified in class 600, subclass 473.
 - VII. Claims 112-117, drawn to a scanning microscope, classified in class 250, subclass 235.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III, IV, V, VI, and VII are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as for a photolithography device. See MPEP § 806.05(d).

Art Unit: 2878

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was not made to applicant's representative due to the complex nature of the restriction.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
